this second edition is fully revised and updated and includes new chapters on sustainability history and archaeology designing through drawing and drawing in architectural practice the book introduces design and graphic techniques aimed to help designers increase their understanding of buildings and places through drawing for many the camera has replaced

the sketchbook but here the author argues that freehand drawing as a means of analyzing and understanding buildings develops visual sensitivity and awareness of design by combining design theory with practical lessons in drawing understanding architecture through drawing encourages the use of the sketchbook as a creative and critical tool the book is highly illustrated and is an essential manual on freehand drawing techniques for students of architecture landscape architecture town and country planning and urban design

have you ever wondered how the ideas behind the world's greatest architectural designs came about what process does an architect go through to design buildings which become world renowned for their excellence this book reveals the secrets behind these buildings he asks you to read the building and understand its starting point by analyzing its final form through the gradual revelations made by an understanding of the thinking behind the form you learn a unique methodology which can be used every time you look at any building

**publisher description**

this revised edition of exercises in architecture learning to think as an architect is full of new content building on the success of the previous edition all the original exercises have been revised and new ones added with the format changing to allow the inclusion of more supplementary material the aim remains the same to help pre or early course architecture students begin and develop their ability to think as architects learning to do architecture is tricky it involves awakening abilities that remain dormant in most people it is like learning language for the first time a task made more mystifying by the fact that architecture deals not in words but in places places to stand to walk to sit to hide to sleep to cook to eat to work to play to worship this book was written for those who want to be architects it suggests a basis for early experiences in a school of architecture but it could also be used in secondary schools and colleges or as self directed preparation for students in the months before entering professional education exercises in architecture builds on and supplements the methodology for architectural analysis presented in the author's previous book analysing architecture the universal language of place making fifth edition 2021 and demonstrated in his twenty five buildings every architect should understand routledge 2015 together the three books deal with the three aspects of learning any creative discipline 1 analysing architecture provides a methodology for analysis that develops an understanding of the way architecture works 2 twenty five buildings explores and extends that methodology through analysis of examples as case studies and 3 exercises in architecture offers a way of expanding understanding and developing

fluency by following a range of rudimentary and more sophisticated exercises those who wish to become professional architects wherever in the world they might be must make a conscious effort to learn the universal language of architecture as place making to explore its powers and how they might be used the exercises in this book are designed to help

this ambitious study of staub s work by architectural historian stephen fox goes beyond a description of staub s houses fox analyzes the roles of space structure and decoration in creating defining and maintaining social class structures and expectations and shows how staub was able to incorporate these elements and understandings into the elegant buildings he designed for his clients in the process he contributes greatly to a fuller understanding of houston s emergence as a premier american city book jacket
